PROFESSIONAL SUMMARY

Front End Developer with nearly 2 years of hands-on experience building responsive, production-ready web applications and user interfaces using React.js, JavaScript, HTML5 and CSS3. Strong in reusable components, REST API integration, state management, frontend architecture and performance optimization. Delivered 10+ websites end-to-end and maintain 15+ live sites.

TECHNICAL SKILLS

Core Web:	JavaScript (ES6+), TypeScript, HTML5, CSS3, JSON, async/await
React / Vue:	React.js, Vue.js, React Hooks, Functional Components, React Router, Redux Toolkit, Context API
UI / UX:	Responsive and mobile-first design, Figma-to-UI, Flexbox/Grid, Tailwind CSS, Bootstrap, Material UI, accessibility
APIs:	REST APIs, GraphQL, Axios, Fetch API, JWT, JSON-driven data flows
Performance:	Lazy loading, code splitting, React.memo, useMemo, useCallback, Chrome DevTools
Tooling:	Vite, Webpack, ESLint, npm, Git, GitHub, Jest
Backend:	Node.js, Express.js, MongoDB, MySQL

PROFESSIONAL EXPERIENCE

Front End Developer | Swaragh Technologies, Bangalore | Jan 2025 - Present

- Build and maintain production-ready frontend features, translating product requirements, designs and wireframes into responsive, reusable React components.
- Develop modular frontend architecture with React Hooks, Redux Toolkit and Context API for maintainable UI modules and predictable state management.
- Integrate REST APIs with Axios and Fetch, handling asynchronous data flows, JSON-driven functionality and JWT-based authentication.
- Work with product and backend teams to review UI ideas, confirm technical feasibility and deliver high-quality interfaces with strong UX and cross-browser support.
- Optimize frontend performance with lazy loading, code splitting and memoization; use Chrome DevTools, Vite/Webpack and ESLint for debugging and code quality.
- Use Git and GitHub for version control, pull requests and code reviews; delivered 10+ websites end-to-end and maintain 15+ production sites.

PROJECTS

TalentSphere AI - AI-Powered Workforce Intelligence Platform

React.js, Redux Toolkit, REST APIs, JWT, Axios, Material UI, Tailwind CSS, Node.js, Express.js, MongoDB

- Built reusable modules for employee profiles, skill tracking and project allocation; integrated secure role-based access, REST APIs, validated forms, and AI-driven resume analysis and skill matching.

SocialPoster - Multi-Platform Publisher and Analytics Dashboard

React.js, JavaScript, REST APIs, modular components, AI integration

- Architected reusable dashboard components for content creation, previewing, scheduling and publishing; built drag-and-drop media upload workflows and AI-assisted caption generation.

Sophrosyne Semiconductor Website

HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design

- Converted Figma designs into a pixel-accurate responsive corporate site and improved performance and cross-browser compatibility.

Sulochana Enterprises Website

HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design

- Converted Figma designs into a mobile-first responsive site with reusable sections and optimized assets for faster page loads.

EDUCATION

Bachelor of Engineering, Computer Science | Channabasaveshwara Institute of Technology, Tumkur | 2020 - 2024

CERTIFICATIONS & LANGUAGES

Certification:	Full Stack Development, Besant Technologies
Languages:	English, Kannada, Hindi
